A moment
to live. ———
An experience
to be shared.

On the exclusive island of St. Barths, Embrace presents a bold interpretation of the luxury villa experience. Carved into the mountainside overlooking Gustavia, the expansive, four-level residence features panoramic views of the sea and harbor, five suites and two infinity edge pools.

Needs are anticipated and wishes fulfilled with an in-house chef, whose creativity is supported by an impressive wine cellar, and a butler who can arrange for anything—any time, anywhere.

Project — *inspiration*

After more than a decade of traveling throughout the Caribbean and experiencing its most exclusive hotels and villas, the owners collaborated with architects and artisans from around the world to create a luxury villa that reflects their respect for nature, passion for design and love for St. Barths.

Discover — *St. Barths*

Since the 1970s, St. Barths has drawn artists, entertainers and entrepreneurs to its white-sand beaches and cerulean waters. Today, the 10-square-mile island is among the world's most exclusive yachting destinations and a popular vacation spot for sophisticated travelers seeking elegance and exclusivity.

The Villa

Bold by — design

Driven by imagination and innovation, Embrace celebrates the art of detail in both its service and style.

Its enviable setting offers an uninterrupted view encompassing the green mountains, Caribbean sea, surrounding islands and Gustavia's yacht-filled harbor.

Within its 12,000 square feet, nature's beauty is invited in with airy architecture and sleek design and complemented by works from some of the art world's most unconventional thinkers.

Embrace uses architecture and design to tell a grand story, one framed by history and heritage and rooted in sophistication and style.

Within the breathtaking villa, guests can host movie night, explore the world via the extensive wine cellar and sit down to meals prepared by the in-house chef.

Design — *vision*

Like St. Barths itself, Embrace is a marriage of architectural and design influences with subtle nods to island living. A Swedish-style roof, local stone exterior and floor-to-ceiling windows create the framework for a striking interior with exotic woods and materials, custom lighting and furniture and commissioned artwork.

The property features the island's only four-story glass elevator, which overlooks a waterfall, as well as a topiary garden and living wall.

Living — *spaces*

The villa features an array of shared spaces for guests to gather, dine or relax.

The Great Room and Family Room feature handmade silk rugs and custom Italian sofas ideal for an afternoon of reading, movie night or late-night conversation.

In the Games Room, Vladimir Kagan armchairs are perfect for passing hours exploring the custom leather T.T.Trunks games table featuring chess, poker, Scrabble®, dominos, Monopoly® and more.

Set on the top floor, the study commands attention with custom furnishings including an impressive black nut-wood and leather desk.

A reflection of ——— *outer* beauty

The villa's five suites are designed to invite nature indoors with clean lines, natural materials and a focus on form and function. Outdoor showers are surrounded by lush foliage while floor-to-ceiling windows disappear into the walls, offering sweeping sea views and access to one of two infinity edge pools with expansive decks and terraces.

Blurring the line between indoors and out, each of the villa's five suites uses floor-to-ceiling glass and modern, muted decor to showcase the island's most impressive attraction: nature.

Windows disappear into walls to bring you one step closer to the sparkling Caribbean Sea, a view that can be savored from bed or your private terrace. While the view is stunning, so too are the finishes within including hand-stitched French leather cabinets from T.T.Trunks and handmade silk carpets from India.

Villa — *dining*

Whether it's lattes and acai bowls at sunrise or chilled cava and grilled scallops on a star-filled night, food at Embrace is on demand—whatever you want, whenever you want it.

Our in-house chef is on hand to prepare whatever you desire and translates every request into creative, beautifully presented dishes that pair perfectly with bottles from our extensive wine cellar.

Food and beverages can be enjoyed alfresco or in the main dining area featuring Casa Fendi bar stools and a custom, marina-inspired table from Italy's Barbarini e Gunnell. We can also arrange a picnic lunch or bonfire dinner on any of St. Barths' 20 white-sand beaches.

— Amenities & services

Spanning four levels, Embrace pushes the boundaries of modern luxury with two infinity edge pools, an outdoor massage suite, an extensive wine cellar, a 10-car underground garage and a private drive-up entrance for the master suite.

Your Embrace experience is overseen by our in-house butler, available 24/7 to fulfill any request, and supported by a private chef and daily housekeeping service. A state-of-the-art security system allows you to truly relax. Each day begins with a delicious continental breakfast and newspaper delivery.

An island of ——— *adventure*

Embrace's coveted location, carved into the mountain overlooking Gustavia's yacht-filled harbor, provides both peace and proximity, with the city's fine dining, designer shopping and vibrant nightlife just a short walk away. Around the island, pristine, white-sand beaches and lush, sloping hills offer ample opportunity for both adventure and relaxation.

The landscape is both the stage and the backdrop for experiencing St. Barths with activities designed to connect with nature and admire its beauty. Morning meditation followed by green juice and avocado toast. A guided hike that ends with a caviar and champagne picnic. A relaxing massage to prepare for an evening on the dance floor.

At Embrace, the experience is whatever you want it to be.
